

INDEPENDENT LIMITED ASSURANCE STATEMENT

To: The Stakeholders of The Kraft Heinz Company

Introduction and objectives of work

Bureau Veritas UK Ltd. ('Bureau Veritas') has been engaged by The Kraft Heinz Company ('Kraft Heinz') to

5th Floor,
66 Prescott Street
London
E1 8HG

Telephone: 0345 600 1828
www.bureauveritas.co.uk

Bureau Veritas UK Limited

Registered in England and Wales 01758622

The utility sources used for GHGs calculation for our manufacturing plants include those from purchased electricity and direct fuel consumption. For the 2021 reporting cycle/period the fuel utilized for the operation of backup generators, fuel consumed by plant mobile assets, such as non-electric forklifts and cars, and other sources such as refrigerants are not included in Scope 1 GHG calculations. This year we are utilizing residual mix electricity emission factors to calculate market based GHGs for our plants located in the United States.

We have used the GHG Protocol for Scope 1 and 2 for the reporting of our emissions and WRI's Aqueduct tool as part of our water stress assessment.

Scope 1 & 2 values for 2021 were calculated using emission factors obtained from the following sources:

- U.S. EPA eGRID 2020 data

- Green-e Residual Mix Emission Rates (2021, based on 2019 data)

- UK government-Department for Business, Energy & Industrial Strategy: 2020 Government greenhouse gas conversion factors for company reporting
